GOVERNMENT 5-STAR SAFETY RATINGS

Overall Vehicle Score

Not Rated

Based on the combined ratings of frontal, side and rollover. Should ONLY be compared to other vehicles of similar size and weight.

|                                                                                                                        |                      |           |
|------------------------------------------------------------------------------------------------------------------------|----------------------|-----------|
| Frontal Crash                                                                                                          | Driver Passenger     | Not Rated |
| Based on the risk of injury in a frontal impact. Should ONLY be compared to other vehicles of similar size and weight. |                      |           |
| Side Crash                                                                                                             | Front seat Rear seat | Not Rated |
| Based on the risk of injury in a side impact.                                                                          |                      |           |
| Rollover                                                                                                               |                      | ★★★★      |
| Based on the risk of rollover in a single-vehicle crash.                                                               |                      |           |

Star ratings range from 1 to 5 stars (★★★★★) with 5 being the highest.

Fuel Economy & Greenhouse Gas Rating (tailpipe only)

MPG 9

CO2 10 Best

Smog Rating (tailpipe only)

10 Best

This vehicle emits 0 grams CO2 per mile. The best emits 0 grams per mile (tailpipe only). Does not include emissions from generating electricity; learn more at fueleconomy.gov.

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 29 MPG and costs \$8,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$0.17 per kW-hr. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
